

Camel Cigarettes

CAMEL Cigarettes meet your taste in many new and unusual ways. You quickly become fond of them—they are so refreshing and cool and fragrant.

You see, Camels are an expert blend of choice Turkish and choice Domestic tobaccos which guarantees the most delightful cigarette qualities that have ever been put into a cigarette. Your test will prove that you prefer the expert Camel blend to either kind of tobacco smoked straight.

Camels blend not only frees the cigarettes from any unpleasant cigarette aftertaste or any unpleasant cigarette odor but it assures that remarkable mellow-mild-body! And, you'll be interested to know that no matter how liberally you smoke Camels they will not tire your taste!

Camels are a cigarette revelation! Prove that yourself! We suggest right here that you compare Camels with any cigarettes in the world at any price for quality and for satisfaction!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages of 10 (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

Willard
STORAGE BATTERY
SERVICE STATION

One Thing More

Most car owners know that this is the place to have their batteries tested with a hydrometer.

—That it is the place to buy a Bone Dry Battery with Willard Threaded Rubber Insulation—which carries with it the evidence of battery newness.

—That it is the place to come for battery charging, repair, and a rental battery.

But, one thing more—it is the place to come, just as soon as you buy your new car, to have your battery registered and get the benefit of Willard 90-day battery insurance.

Drive in, whether you have bought a new car or not. Perhaps we can give you some battery information that will mean longer life to your battery and fuller use of your car.

Read What The People who work for you have to say to you

The manufacturer who makes your shoes is working for you. The store that sells your shoes is working for you. So is your grocer and baker and gas company and clothier and every person who makes or sells anything that you buy.

Quite often these people have messages for you. They want to tell you about new goods or changes in styles and prices or give you other information.

It is not practical for them to come and speak to you personally because they have too many customers to serve. So they put their messages in advertisements in your daily newspaper.

It is your interest to read advertise-

ments. They are published for your benefit. Advertisements keep you informed as to what manufacturers and merchants are doing for you. They help you to buy the right goods at the right time and make the most of your money.

You'll find that business concerns which tell you frankly what they are doing are most to be depended upon. Stores that advertise are progressive stores that have something really worth while to say to you. Manufacturers who advertise their goods have confidence in them; it does not pay to advertise anything that is not good.

Make a habit of reading advertisements. It is interesting as well as profitable.
